EXPERIENCE

Staff Product Designer, Core App · Snap Inc.

Sep 2024 - Present

- Launched Topic Chats, public communities around shared interests. Early results show increases to overall Snapchat DAU.
- Scaled Snapchat Games from an early-stage bet to a 30M+ DAU product area
- Led design on Messaging initiatives that grew bi-directional Daily Chat/Snap relationships by +3.4% since January
- Owned and led design and product strategy across multiple product areas: Camera & Lenses, Messaging, Growth, Games, and Topic Chats

Senior Product Designer, Core · Tinder

Jan 2023 - Sep 2024

- Launched 0 to 1 experience focused on helping LGBTQIA+ users connect beyond algorithmic matching.
- Transformed my Hackathon-winning project into a globally launched app redesign, introducing dark mode, prompts, quizzes, and new animations, leading to lifts in engagement, revenue, and user satisfaction.

Product Designer, Discovery · Tinder

Sep 2021 - Jan 2023

- Owned design for Tappy Cloud, a backend-driven solution enabling dynamically configurable Tinder profiles, driving a nearly 20% increase in Likes Sent, strengthening how people find and connect with the right matches.
- Led end-to-end design for Festival Mode, launching the 0 to 1 feature in only 2 months, establishing the foundation for event-based experiences in long-term product roadmap.

UX Designer · Whip Media

Jun 2020 - Sep 2021

- Sole designer on a complex suite of 0 to 1 SaaS web products, pioneering the digitization of content licensing and providing real audience sentiment data to major studios and networks including NBCUniversal, Warner Brothers, and HBO.
- Partnered with developers to create a Design System and Component Library, streamlining development timelines by several weeks and establishing visual and interaction consistency across the product suite.

UX Designer · TV Time

Oct 2019 - Jun 2020

- Shipped new features that expanded the app into new markets, such as the introduction of Movie tracking, which increased engagement metrics by double digits.
- Redesigned existing features to deepen social engagement, including shareable Custom Lists and revamped Episode Pages with new reactions, growing the user base to over 20M globally and winning a Webby for Best Entertainment App.

Visual Designer · TV Time

Aug 2018 - Oct 2019

- Created and organized 500+ ads in a range of formats including in-app, social, email, web, in-theatre, and OOH.
- Ran A/B and multivariate tests on ad creatives, refining based on quantitative performance data, resulting in over 5M impressions and 1M organic downloads.

Graphic & Motion Designer · Tangent Agency

Jun 2018 - Mar 2019

- Produced multi-format ads (static, GIFs, video, OOH) for film and television campaigns including the Lego Movie 2 campaign, which won several awards for social media and interactive marketing.
